Sir:

This Supplemental Response to Restriction Requirement supplements a Response filed October 22, 2004 to the Office Action mailed September 24, 2004 in the subject application, and which set a period for Response to expire on October 24, 2004.

A copy of that Response, and of the USPTO postcard receipt of same, are attached as Exhibit A. It was subsequently determined that the application identifying information on the first page, and in the head note line of each of pages 2-5 of the Response was incorrect.

Particularly, on November 12, 2004, Examiner Scott Klinger of Group Art Unit 2153, to whom the Response was misdirected because of the data errors, called the secretary, Renee Adams, of the undersigned attorney of record, to say that he was going to try to transfer the Response to Examiner Torres. Several telephone calls later, and as of March 2, 2005, Team Leader, Kimberli Spears, had advised Examiner Torres that the transfer could not be made and that the Response should be re-filed.

CERTIFICATE OF FACSIMILE TRANSMISSION

I hereby certify that this correspondence is being transmitted via facsimile to: Commissioner for Patents,

Docket No.: 1573.1009

Applicants, accordingly, are filing this "Supplemental" Response, it being understood that, because of the actual, timely filing of the Response albeit with inadvertent data errors, no Extension of Time payment is required. However, if an extension of time payment is required and thereby to maintain pendency of the application and be timely responsive to the outstanding Office Action of September 24, 2004, the Commissioner is authorized to deduct same from Applicant's Deposit Account No. 19-3935.
